

## International Supercomputing Conference 2024 (ISC) in Hamburg

### HPCQS Workshop – 16 May 2024; Hall Y1, Floor 2

Time	Title	Content
09:00 - 09:15	Introduction by organisers	Welcome to participants. Introduce agenda and format. Survey attendees expectations. <b>Speaker: Venkatesh Kannan, ICHEC</b>
09:15 - 09:30	Introduction of HPCQS project	Background, European positioning, technical and strategic significance of HPCQS project. <b>Speaker: Kristel Michielsen, FZJ</b>
09:30 - 10:05	HPCQS Infrastructure Software	Presentation and demonstration of HPCQS system software for resource management and scheduling. <b>Speaker: Carsten Clauss, ParTec AG</b>
10:05 - 10:40	HPCQS Programming Framework	Presentation and demonstration of AQPU interface and analogue QS programming language framework developed in HPCQS. <b>Speaker: Cyril Allouche, Eviden</b>
10:40 - 11:00	Panel	Q&A with open floor discussion with presenters about design decisions and approaches for HPCQS system software. <b>Moderator: (TBC)</b>
11:00 - 11:30	Break	Break
11:30 - 12:15	Hybrid Use-Cases and Applications	Outline of pilot HPCQS use-case applications. <b>Speaker: Venkatesh Kannan, ICHEC</b>  Presentation and demonstration of graph colouring hybrid application. <b>Speaker: Krisztian Benyo, Pasqal SAS</b>
12:15 - 12:40	World Café	Structured conversation process about importance, challenges and opportunities for identifying and developing additional hybrid use-cases and application workflows for HPCQS systems. Aimed at knowledge sharing among attendees through discussion of topics based on questions from organisers to guide conversation. <b>Moderator: (TBC)</b>
12:40 - 13:00	Engagement with HPCQS	Indicative timelines and process for access to HPCQS systems. Methodology for stakeholder engagement. Next steps and farewell. <b>Speakers: Kristel Michielsen, Venkatesh Kannan</b>

HPCQS has received funding from the European High-Performance Computing Joint Undertaking (JU) under grant agreement No 101018180. The JU receives support from the European Union's Horizon 2020 research and innovation programme and Germany, France, Italy, Ireland, Austria and Spain in equal parts.
